Soft Skills

During my internship at the Public Prosecutor's Office and my work as a lawyer, I have honed a strong capacity for adaptability and effective workload management. This has led to the development of exceptional self-management skills when handling tasks and priorities. I have also cultivated initiative and entrepreneurship. The diverse professional settings and the range of individuals I have engaged with during my experiences within public offices, my professional endeavors and my involvement in the academic community during both my undergraduate and postgraduate studies have greatly contributed to the growth of my communication and interpersonal skills. This exposure has provided me the opportunity to develop a solid aptitude for collaborative teamwork. In all work environments, I have had the chance to test my ability to positively respond to work pressure, maintain control, focus on planning and resource organization based on identified priorities. This has been accompanied by a proactive problem-solving orientation. My commitment to academic pursuits has persisted beyond my graduation, as I pursued further studies, allowing me to sustain my dedication to legal matters, spanning various topics within criminal and procedural law.

I authorize the processing of my personal data in accordance with Article 13 of Legislative Decree 196/2003 and Article 13 of the GDPR (EU Regulation 2016/679) for the purposes of personnel research and selection.
